(SRI K. HANUMANTHAIYA.)

animosity and party warfare. At least in this patriotic field of educational reform, let us forget personalities and pull together, whatever parties we may belong to, so that we may give a new turn, a new vision to our young men and women who are after all going to be the future citizens and the rulers of the State.

Now the debate is concluding. I propose to call for another educational conference and that will consist of only people in the department. After all, it is the Inspectors, the District Educational Officers and other responsible officers in the department that will have to bear the responsibility. After finally discussing with them the proposals that are to be implemented, such of those matters as require Government Orders only will be translated through Government Orders. With regard to such of those proposals as require legislation, legislation will be brought before this House in due time.

Sir, I once again appeal to this House to make this educational reform the great success as all of us want it to be.

MR. SPEAKER.—Now I request Sri P. R. Ramaiya, in the absence of the Chairman of the Privileges Committee, to move the motion regarding this Privileges Committee Report.

SRI J. MOHAMED IMAM (Jagalur).—May I say something about the proposals to be implemented, with your permission?

MR. SPEAKER.—The House has heard the Hon'ble Chief Minister with rapt attention.
